What is rack rental hosting & cabinet colocation?

Rack Rental Hosting and Cabinet Colocation are two highly effective solutions for businesses and individuals looking to host their IT equipment in a secure, reliable, and professional environment. Rent a full or partial rack that is dedicated to your equipment only, ensuring no shared space or interference from other clients.

What is rack rental hosting?

Rack Rental Hosting is a service that provides customers with dedicated space within a data center to house their own servers and IT equipment. The rented rack is exclusively for the client's use, offering a secure, controlled environment with reliable power, cooling, and high-speed connectivity.

Where can I rent less than cabinet rack space?

Clients can rent less than a full cabinet of rack space from colocation providers such as Equinix and others at popular locations like NY2, NY4, 60 Hudson, 111 8th Avenue, etc. To inquire about this option, please use the Data Center Rack Space Contact methods.

Why should you rent a server rack?

Renting a server rack lets you benefit from our deep data center expertise and resources -- 24/7 technical support, remote hands and monitoring services. Climate control systems maintain the right environment for the operation of IT equipment. Tell us what you need -- our experts are ready to find a custom solution!

Providers offer options from single rack units to full racks or private cages. The larger your space, the lower the cost per unit, so businesses often rent space by the rack or unit, depending on ...
