Your single source: High-efficient float glass production, glass coating, glass processing as well as high-capacity production of flat solar mirrors. Everything is highly automated, precise and efficient.

As a leading solar-powered glass manufacturer, First Glass is dedicated to innovation in the development and production of advanced solar-powered glass solutions.

Stewart Glass is establishing what officials call the "first fully operational solar glass facility in the United States." The plant is scheduled to open in March 2026 in Logan, Ohio, and ...

Understanding the top factories is crucial for making informed choices. By knowing the best options, you can ensure quality and efficiency in your solar projects. Dive in to discover the leaders in solar glass ...

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and China, new facilities are popping up in North America, with ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon photovoltaics, ...

Located in Logan, Ohio, our facility will begin producing high-performance solar glass in March 2026, making us the first fully operational solar glass plant in the United States.

Onyx Solar is the global leader in manufacturing photovoltaic glass for buildings. We develop solutions for the integration of photovoltaic solar energy into buildings (BIPV).
