What is an advanced solar generator?

The Advanced Solar Generator is a highly upgraded version of the basic Solar Generator. Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed.

How does advanced solar generator work?

This generator will produce energy during daytime if the weather is clear. A non-transparent block above the Advanced Solar Generator will stop its production. The generator's GUI shows the amount of energy stored, if the sun is up and the maximal output. Advanced Solar Generator has no known uses in crafting.

How much sunlight does the advanced solar generator produce?

By default the Advanced Solar Generator produces 300 J/t in direct sunlight, and can output a maximum of 600 J/t. This amount can be changed inside of the Mekanism Config. Like the Solar Generator, the Advanced Solar Generator does noticeably better in biomes that are hotter, but not too hot.

How do I use the advanced solar generator?

The Advanced Solar Generator only produces power during the day. Universal Cable or other compatible wire can be connected to the side of the base with a green square. Right-click the generator with a wrench or Configurator set to Rotate to rotate the entire assembly. Bio-Generators produce electricity from Bio Fuel.
