The market is evolving from a duopoly of EVE Energy and Rept Battero to a three-way race with Poweramp, as these companies compete with similar product portfolios and customer ...

Battery shipments totaled 300 MWh in the first quarter, a "substantial" increase from this time last year, and Jinko expects to ship around 6 GWh worth by the end of 2025, leveraging its PV customer base ...

This achievement marks the company's first 1GW+ quarterly milestone since Q3 2023, reversing a downturn that saw shipments plummet to a five-year low of 850MW in Q3 2024. ...

But here's the kicker - this isn't your grandfather's manufacturing race. We're talking about companies that make battery cabinets smart enough to predict grid fluctuations and tough enough to withstand ...

The June 30 installation rush drove cell shipment for the utility-scale storage market in the first half, up by 44.3% YoY. Moreover, 300Ah+ products have accounted for a market share of ...

Global utility-scale storage cell shipments reached 92.85 GWh in 1Q25, up 160.08% YoY. In the utility-scale storage market, the top five players have remained unchanged for three ...

On December 12, five units of Hanersun's HNESS 2000-40H energy storage systems were loaded for shipment to Boynitsa, Bulgaria. This marks another collaboration between Hanersun ...

MUNICH, June 25, 2024 /PRNewswire/ -- EVE Energy, a leading global lithium-ion battery company, has sprinted to second place in the 1Q24 Energy-storage cell shipment ranking recently released...
