About Us: We specialize in advanced lithium battery BMS solutions for global markets, with a focus on renewable energy and industrial applications. Based in Penang, our team combines local expertise ...

Solar energy is radiant energy from the sun--a fully renewable energy resource. We use the solar resource to provide daylight, electricity, and heat in four ways (in order of prevalence):

Plug-in solar has remained in the shadows because of a lack of safety standards and often costly requirements imposed by utilities, but that's changing.

The first locally-produced battery energy storage system (BESS) product in Malaysia will support the energy transition and boost competitiveness in high tech industry sectors, a government minister has ...

Home solar panels are rapidly becoming mainstream. We'll help you decide if a home solar panel system is right for you.

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

The optimal angle for your solar panels will depend on your latitude. At the equator, the sun is almost directly overhead, so solar panels should be installed at a relatively shallow angle, around 10-15 ...
