Global South Utilities (GSU) has secured agreements with Madagascar to develop a 50 MW solar plant and a 25 MWh battery energy storage system (BESS) in the island nation. [pdf]

The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of residential and utility-scale solar while undermining the growth of U.S. manufacturing.

Explore each of the research areas below and the research topics within them. You can also learn about the basics of solar energy and find solar energy resources.

Oslo, 22 July 2025: Scatec ASA has been awarded preferred bidder status for a total of 846 MW solar (the Kroonstad PV cluster), in the seventh round of the Renewable Energy Independent ...

South Ossetia is emerging as a promising region for renewable energy adoption, particularly solar power. With its geographic advantages and growing demand for energy independence, the need for ...

As South Ossetia accelerates its renewable energy adoption, selecting the right energy storage battery supplier becomes critical for project success. From industrial-scale solutions to emergency power ...

With Sasol being South Africa's largest private sector buyer of renewable energy, the renewables procured by Sasol to date is expected to inject R18-20 billion of capital investment into SA economy.

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...
