Summary
Installation
The installation of solar photovoltaic glass will depend on the type of application and building structure. The glass can be integrated into the facade or roofing system of a building during construction or retrofitted onto existing structures. The installation process typically involves mounting the solar panel...
Maintenance
Solar photovoltaic glass requires regular cleaning to maintain its efficiency. The glass should be cleaned with a soft brush or cloth and a mild cleaning solution to prevent scratches and damage. The panels should be inspected regularly for any cracks or damage and repaired or replaced as necessary.
