---

This product is designed for solar photovoltaic systems and is installed between solar panels or on the edge of the aluminum frame to effectively prevent rain, dust and wind pressure from invading, ...

-Solar Panel Cleaning Clip is a rectangular self-adhesive strip made of polymer, which contains water-inducing agent. Just stick it to the frame of the photovoltaic module, There is no need to make any ...

?Automatic Water Removal?The solar panel drainage clips are designed to automatically remove accumulated water, ensuring efficient power generation and extending the ...

These clips ensure that rainwater, dew, and condensation do not remain on the solar panels or their frames, protecting the entire photovoltaic (PV) system from moisture damage and ...

Features & Benefits of the Update Solar PV Water Drain Clip. High corrosion resistance (ideal for coastal, humid, or industrial areas). Rust-proof & weather-resistant, ensuring longevity even in ...

Edge sealing systems are used to seal the edges of photovoltaic panels, preventing water from seeping into the gaps between the panels. These systems typically involve the use of sealing ...

?Automatic Water Removal?The solar panel drainage clips are ...

Solar Panel Water Drain Clips is installed on the frame of the solar panel to drain accumulated water and dust from the panel, thereby extending the service life and power generation of the solar panel.
