Synogen, a clean energy engineering and technology company, has successfully commissioned one of Sri Lanka's largest rooftop solar photovoltaic projects - a 6.4 MWp installation ...

The "Rooftop Solar PV Power Generation Project" provides electricity consumers with long-term debt financing for installation of rooftop solar photovoltaic power generation systems in Sri Lanka.

Nestled in Sri Lanka's hill country, Kandy is embracing rooftop photovoltaic (PV) systems with energy storage to combat frequent power outages and rising electricity costs.

The 85 kilowatt peak hybrid solar system, mounted above an active tea plantation, powers over 100 households through a battery energy storage solution while also contributing clean ...

The Cabinet of Ministers has approved the award of tenders for the installation of independent battery storage systems at 16 electrical substations across Sri Lanka, a major step ...

PIDG's investment, through its project development solution, InfraCo, is expected to enable Greenpower SL to double its rooftop solar portfolio and support the exploration of new ...

Sri Lanka's rooftop solar programme, initiated under Suriya Bala Sangramaya, has grown impressively, now reaching 1,700 MW across 100,000 households and buildings. This ...

Instead of centralised storage, Sri Lanka can unlock hidden capacity in existing rooftop systems by encouraging households to install subsidised batteries supported by a guaranteed ...
