What is a Lenovo 42U 1200 mm deep rack?

Lenovo 42U 1200 mm Deep Rack offerings are industry-standard 19-inch server cabinets that are designed for high availability server environments. They are optimized to help maximize floor space, expedite installation, simplify cable management, and increase accessibility for improved serviceability.

What sizes are available for a data center rack?

The sizes are available in 24U, 42u and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack. The fan tray is powered with a standard 110 power cable that may be plugged into a power strip or PDU.

What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What size rack is available for a network cabinet?

The 800 mm wide rack is also available for a network cabinet. Our cabinets are the EIA standard 19" server rack. The sizes are available in 24U, 42u and 48U to get the most height out of your data center space. All of these rack options come standard with 2 vertical cable management bars that are the same height of the rack.

Find a flexible cabinet solution that meets the needs of your most demanding environments and can be customized to your unique requirements. [Learn more.](#)
