Following Pope Francis's announcement of a new solar plant, Vatican City is on track to become the eighth country in the world to generate 100% of its electricity from renewable energy.

Vatican City is set to become the eighth country in the world to generate 100 per cent of its electricity from renewable energy after Pope Francis announced plans to build a solar plant.

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...

Once the solar plant in the Vatican is finished, it will bring Vatican City into an elite group. The only other countries that currently generate over 99.7% of their electricity from renewables are ...

By May 29th, 2025, that vision was fulfilled, and the Vatican City became one of the only fully solar-powered states in the world, setting a clear precedent on how belief and sustainability can ...

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity. The vision is not of sterile solar ...

To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could supply all of ...

Vatican City is set to become the eighth country in the world to ...
