A UPS (Uninterruptible Power Supply) is an electrical device that provides backup power to critical equipment or systems in the event of a power outage or voltage fluctuations.

Ensure continuous power with an uninterrupted power supply from Officeworks. Shop UPS systems with fast delivery and competitive pricing.

An Uninterruptible Power Supply (UPS) is essential for ensuring continuous power to critical equipment, such as computers, servers, and medical devices, during power outages or fluctuations.

An uninterruptable power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out.

The principle is simple: Uninterrupted power supplies (UPS) keep the power on for a period, allowing users to safely shut down computer systems. There are various types, each providing a different ...
