Whether you're seeking a highly portable option or need one that's heavy-duty enough for extended use, these are the best solar generators we've tested and researched to date.

Xindun is based in China and its products are already largely sold to more than 100 countries and regions such as Asia, Africa, the Middle East, Latin America etc.

Solar power in Pakistan discusses the generation and development of electricity via solar thermal or photovoltaic technology in that country. The country has solar plants in Pakistani Kashmir, Punjab, ...

Our gas turbines, HFO generators, diesel generators, solar power plants, energy storage, and Hybrid services are provided with Front End Engineering and Design (FEED), O& M, and Operational ...

We spotlight the top 7 solar energy projects in the Asia-Pacific region that are making significant strides in harnessing solar power.

In an effort to show the strength of solar power in the region, we've compiled a list of the Top 50 largest Asian PV plants. This list of solar PV plants comes in preparation of the 2-day ...

Asia Pacific is experiencing a significant surge in solar generator adoption due to rising energy demand, rapid urbanization, and increasing investments in renewable energy infrastructure.

The largest nuclear plant is Kori, South Korea (7,489 MW) following the 2011 suspension of Kashiwazaki-Kariwa, Japan (7,965 MW). In renewables, as of 2025, the largest solar farm is Gonghe ...
