Should I buy a solar energy system with cash or a loan?

Purchasing a solar energy system with cash or a loan is the best option when you want to maximize the financial benefits of installing solar panels, take advantage of tax credits, and increase the market value of your home, and a solarize program is unavailable or impractical.

How do I choose the best way to use solar electricity?

Before deciding on the best way to use solar electricity at home, assess the potential solar energy that can be produced at your address. Because PV technologies use both direct and scattered sunlight to create electricity, the solar resource across the United States is ample for home solar electric systems.

How do I choose a home solar system?

Some of the factors to consider when choosing a Home Solar System are: Understanding your household's energy consumption patterns is crucial when choosing a home solar system. The system's size, cost, and number of panels will depend on the amount of energy you need to generate.

Who owns a solar energy system?

The system can be on- or off-site and may be owned by utilities, a solar developer, non-profit entities, or multiple community members. Learn more about community and shared solar. If you lease a solar energy system, you are able to use the power it produces, but someone else--a third party--owns the PV system equipment.
