The workshop is the culmination of the outputs of a consortium of experts in storage systems, who began supporting Barbados at the beginning of 2024 to address the gridlock challenge ...

Battery Energy Storage Systems (BESS) can store electricity when there is an abundant supply (e.g., during peak solar generation) and subsequently release it when there is no solar (at ...

This first tranche of the competitive procurement process aims to deploy 60 MW (240MWh) of new Battery Energy Storage Systems (BESS) in Barbados, aiming to unlock renewable energy (RE) ...

Traditional lithium-ion (Li-ion) batteries have served us well, but their limitations are clear. Cycle life is limited, charging is sluggish, and supplies of raw lithium are not only far from infinite but ...

The Barbados Light & Power Company Ltd @BLPC installed utility-scale energy storage as a component of the 10 MW Solar Photovoltaic (PV) plant in the north of the island at Trent's St. ...

Barbados, a sun-drenched Caribbean gem, now wants to harness its tropical climate for more than just tourism. With ambitious renewable energy goals, the island nation is racing to ...

By integrating more renewable energy, Barbados can substantially reduce its carbon footprint and bolster energy security, ultimately enhancing grid stability and resilience--an essential ...

Dive deeper into the details of Barbados Light & Power's battery storage challenges in this exclusive podcast. Hear expert analysis on the regulatory decisions, the technical requirements for grid ...
